Water Eyes is a mural combining paper, illustration and augmented reality, which tells the story of the character of water and two secondary characters, the sky and thunder.

Inspired by expressions from around the world, these characters share their unique vision of the world when brought to life with the free Fortune Teller AR app.

Step 1: Download 'Fortune Teller AR' from the store corresponding to your smartphone (Apple Store, or Google Play for Android).

Step 2: Open the application. Tap 'Start'.

Step 3: Move your camera over the different eyes!

Graduate of the École des Arts Décoratifs in Paris, Julie Stephen Chheng explores the qualities of paper and digital media in the fields of book design, graphic design and scenography.

Through her various research projects, Julie Stephen Chheng questions our relationship with nature by confronting the mechanics of interpretation shaped by words and images. Her work revolves around playful and combinatorial storytelling, inviting the viewer to situate themselves within tangible and virtual worlds.
