Souche is a work in constant evolution. It has the particularity of being able to evolve according to when and where it is presented. With each new presentation of this work, new images created by the artist are produced, adding to the visual material of Souche, grouping together with the previous ones.

Souche is a video sculpture. It consists of a semi-pyramidal wooden structure with cubic surfaces onto which video is projected (mapping) using two overhead video projectors to cover the entire sculpture with moving images. The result gives the illusion of an indissociable whole, the video becoming one with its projection support.

Anne-Sophie Emard graduated from the Clermont-Ferrand art school in 1997. In 2003, she lived in Montreal as part of the Institut Français' artist residency program "Les Inclassables". Her work is part of the collections of the FRAC Auvergne and the Musée d'art Roger-Quilliot in Clermont-Ferrand. In residence at the **VIDEOFORMES** festival in 2005, she has participated on several occasions in this event, as well as in the nomadic residency program initiated by **VIDEOFORMES**: Scotland and Hong Kong in 2016, Teheran in 2017. With Pierre Levchin (video artist, stage and lighting manager), she created the duo Dersu & Uzala, dedicated to scenic image and light devices (dersuzala.com).
